DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 20 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrases "the channel" (line 2) and "the bulb" (line 3) lack antecedent basis.

Claim Rejections - 35 USC § 102

4. The rejection of claims 1, 5, and 7 under 35 U.S.C. 102(b) as being anticipated by Deficis is hereby maintained.
5. Claims 1, 5, 7, 10, 11, 15, 17, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Cotter. Applicant's attention is drawn to Figure 2 and the description of column 1, lines 48 - 65 and column 2, lines 38 - 67.

Double Patenting

6. The rejection of claims 1 and 2 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,250,800 is hereby maintained. Applicant's comments regarding the double patenting rejection are noted. As Applicant's amendment has not distinguished the

claims of the application from those of the patent, the double patenting rejection is maintained.

Response to Arguments

7. Applicant's arguments filed 3/8/04 have been fully considered but they are not persuasive. Applicant contends that Deficis is for measuring temperature, not for measuring the fluid. It is noted that the claim recites "making possible measurement of fluid length" but does not specifically require that the length actually be determined. As such, this does not distinguish over Deficis. Even with the structure of Deficis, one could determine the fluid length by making additional measurements/calibrations before inserting the device into the subject. Thus, using the device of Deficis makes possible the determination of the length (which is all that is required to meet the claim), even if such a result is not required/contemplated by Deficis in implementing their device.

Allowable Subject Matter

8. Claims 3, 4, 6, 8, 9, 12 - 14, 16, 18, and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

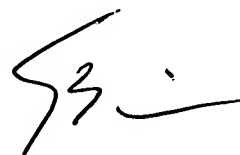

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
